

# CLEAN & GO

WAX SPREADER SUPPORT - 40 CM

Product code. 00008360

An accessory for traditional wax-spreaders, it has an aluminium part that comes into direct contact with the wax-spreader spare and a plastic joint that makes it easier to spread the wax in environments with obstacles. The ring-nut enables any type of handle to be attached, and the hook is used with the handles with holes to prevent them rotating.

## TECHNICAL DATA
